

I am a paying subscriber to XM Satellite Radio and have been informed of the NAB's petition 04-160, to stop XM Radio from transmitting weather and traffic, local to my area.

Two reasons I left AM/FM radio, was because of the over commercialization and stagnant music. They have no product to offer, as far as I'm concerned.

XM Radio, on the other hand, has what I want, when I want it. Again, I PAY FOR THIS!

So I urge you to reject the NAB and their petition to stop XM from providing me the services I pay them for. AM/FM radio doesn't cut it. Not even close.
